

Warrior Racing

Summer Racing

Over the summer, Warrior Racing continued to test and race RWX and RW9. This included taking "Xena" to a hosted by the University of Pittsburgh, and an autocross in Oscoda, MI. RWX continued to perform, finishing 3rd at the Pittsburgh shootout, and winning the Formula SAE class at the Oscoda autocross. The team continued to make improvements to RWX adding pneumatic shifting for the first time on a Road Warrior. Warrior Racing also hosted our second annual end of season shootout. This gave first year team members a chance to drive a formula car for the first time. It also a goodbye for our two graduating members, team President Tirath Matharu and lead analyst Pranav Sridhar.

Help Us Take the Checkered Flag

Warrior Racing is taking part in a crowd funding campaign through the WarriorFunder program at Wayne State University. We are looking to reach our goal of \$2,500 to cover our competition fees this season. We are just over half way there, at \$1,455 but time is running out! We only have until October 14th to reach out goal! To help us out, please visit:

<https://warriorfunder.wayne.edu/project/2723>

By helping us out, you too could receive some Warrior Racing gear including t-shirts, hats, team posters. There is also a chance to receive a personalized shop tour, your name or logo on our next Road Warrior and passes to Kart to Kart go karting.

Welcome Warriors

Fall marks a busy time for Warrior Racing, we brought RWX and RW9 to many events both on and off campus. First we took RWX to the Woodward Dream Cruise, not even the rain could dampen our spirits. Next we had RWX and RW9 on display at Wayne State's Festifall. We attracted a lot of attention as new students heard the roar of our Road Warriors. Thanks to all of those that stopped by and took a picture with our team, including the WSU Cheerleading team, WSU Police, and Dean Farshad Fotoui.

Tire Talks with Dr. Edward Kasprzak

Warrior Racing hosted a lecture from Dr. Edward Kasprzak as part of the SAE Industrial lecture series. Dr. Kasprzak gave a presentation on tire testing and the SAE tire testing consortium. He also shared invaluable knowledge about the design event and his Formula SAE experience. Our whole team took in great information from Dr. Kasprzak's visit, and we would like to thank him again for making the trip down to meet with us. We also got to see Dr. Kasprzak the following day at the SAE workshop hosted by Lawrence Tech. Warrior Racing alumni Adam Niner and Kristina Vujic flipped sides from spectators to presenters at the workshop, as they covered team management and organization.

Major events, like SAE gatherings or intercollegiate races, need to have bigger articles on the main page. These events on this page should be about fundraisers and the such. If there's updates on the cafe', they'd go here. When competition roles around I always do a refresh of the point breakdown and what happens each day. You can put that here, but that does deserve a full article (see previous newsletters for examples)

Sponsor Updates

Warrior Racing is proud to welcome back Liberty's Gears to our program! They have assisted our team with the precise manufacturing of many Drivetrain and Suspension components. Needless to say Road Warrior 8 wouldn't be on the ground without their support! Thank you Liberty's Gears!

Warrior Racing 2014-2015 Sponsors

Our team's success is made possible through the generous donations and support from the following companies. Without them our team would not have the resources needed to provide invaluable hands on experience and to manufacture our formula cars. From all members of our team, thank you Warrior Racing sponsors!
